SIR,

I have the honor to state that the works executed in the Government Press of the Archaeological Department were not being charged for hitherto as it constituted a separate department. Now that it forms part of the University of Mysore, I request to be informed whether the printing and Binding work executed for the Office of the Director of Archaeological Researches may be charged for and bills sent for payment in the same way as the works done for the University

University are being charged.

I request the favour of an early reply.

As the Archaeological Dept is placed under the Univ; and for purposes of administrative control, there appears to be no reason why it should be made to pay for the printing work executed for it, when the other departments of Govt are not so charged

The work of the Archaeological Dept having been placed under the Univ it seems desirable that there should be a uniform system in regard to printing. The printing done for the Archaeological Dept may in this view be paid for from the Univ additional provision for this being made in the Univ (Archaeology) budget
